

Grapevine Residents and City Staff Rally for Storm Clean Up

On the evening of June 10th and early morning of the 11th, a series of five thunderstorms rolled through Grapevine and surrounding areas. The most severe of the storms was a very fast-moving one that hit the area at approximately 7 pm and brought heavy rains, lightning and high winds in excess of 50 mph. In the path of the storm, Grapevine was left with major power outages from service wires being blown or torn down, hundreds of downed or damaged trees and limbs, and damaged fences and property from the high winds. Despite the widespread damage and major inconveniences caused by the loss of electrical service for up to 72 hours in some cases, no major injuries or structural damage were reported.

Over the next several days in the aftermath of this storm, it was

once again confirmed what is the greatest asset of Grapevine—the people who live and work here. Immediately after the first storm subsided, people in virtually every neighborhood began to examine the results. As it became clear that numerous homes and people were in need of assistance, the “community effort” began: Neighbors helping neighbors; City crews—in many instances working totally outside the realm of their normal jobs—were in the streets and yards helping to clear debris, clear yards of downed trees, and to contact the public safety crews as needed. The Vineyards Campground and Cabins

The Vineyards Campground and Cabins in Grapevine was recently named as one of the "Top 12 Campgrounds in the United States" by the Good Sam Club, the world's largest organization of RV owners.

More than 1,700 Good Sam-endorsed RV Parks and Campgrounds were considered for this honor. Nearly 13,000 RV owners participated in the 2008 national online satisfaction survey conducted by GuestRated.com that evaluated RVers' experiences at independent campgrounds and RV resorts affiliated with the National Association of RV Parks and Campgrounds.

The Vineyards Campground and Cabins, located on the southern bank of Lake Grapevine at 1501 N. Dooley Street, offers RV sites, cabins, tent camping, boat ramps, kayaking, geocaching and other amenities to campers.

Grapevine Police Department Safety Event

Identity & Vehicle Theft Prevention and Child Passenger Safety Seat Inspection/Installation

On Saturday, August 29th between 10 am and 2 pm, the Grapevine Police Department, in conjunction with Data Shredding Services, will offer residents the opportunity to have unwanted confidential documents properly discarded and shredded, free of charge, at 307 West Dallas Road (across the street from the Police Department). The Police Department will also be conducting VIN Etching and Child Passenger Safety Seat Inspections/Installations at the event.

VIN etching enables the Vehicle Identification Number (VIN) to be permanently etched (acid etch) into the major windows of a vehicle. VIN etching is a theft deterrent and may entitle you to an auto insurance premium discount. VIN etching makes the VIN easily accessible for law enforcement officers to identify your vehicle, discouraging criminal from stealing your vehicle due to the ease at which it can now be traced. Texas ranks number two in the nation in auto theft, with a vehicle stolen every five minutes. The top five consistently stolen vehicles in Texas are Ford, Chevrolet and Dodge pickups, Honda Accord and Honda Civic. The etching service is free to Grapevine residents.

Child Passenger Safety Seat Inspection enables parents and caregivers to receive education and hands-on assistance with the proper use of child restraint systems and seat belts. FYI, beginning September 1, 2009, kids in Texas who are under 8 years old who are not yet 4'9" tall will be required by law to ride in a booster seat or other approved car seat.

The previous Texas car seat law only covered kids through age four and less than 36" tall, who still should be buckled into car seats per State law. Texas is one of many states to create a booster seat law recently, thanks to updated information that shows kids ages 5-8 are not properly protected by adult seatbelts alone and are being injured in greater numbers in vehicle crashes due to inadequate protection.

Please join in the fun and bring the children so we can help you keep them safe. We will have activity and coloring books for the kiddos, stickers, giveaways and safety literature.

For additional information, please contact Senior Officer Scott Rhodes at 972-724-2126, Jason Keller at 817-914-4392, or Tim Gill at 817-410-3209. 🍇

Know Your Watershed

Did you know that you live in a watershed? In fact, everyone lives in a watershed. A watershed is the land surrounding a body of water that drains to that water.

The storm water that lands in front of your house will eventually drain to a creek, river or Grapevine Lake.

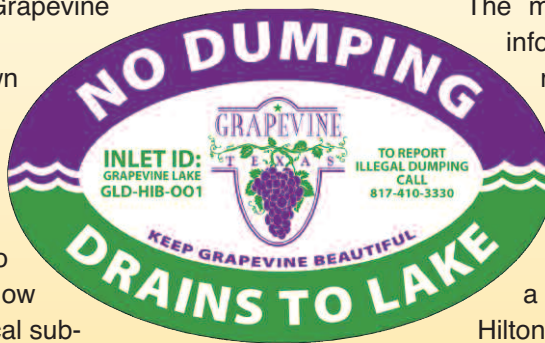

Watersheds can be broken down into regional watersheds, and broken down further to local sub-watersheds. The focal point of each type of watershed is some sort of waterbody. Smaller creeks flow into streams that flow into rivers that flow into lakes or the ocean. Similarly, local sub-watersheds are found within regional watersheds that are found within watersheds.

The City of Grapevine has three watersheds, six regional watersheds, and 21 local sub-watersheds within its borders. Any water that hits the street enters the storm drain system, which is untreated, so pollutants that enter the system stay in the system and eventually make their way to a creek,

river or lake.

The City of Grapevine wants you to know where your water goes. The City, with help from Keep Grapevine Beautiful, began marking all public storm drain inlets in May.

The marker will contain useful watershed information. On the left side of each marker is a unique inlet identification number consisting of the major waterbody the inlet drains to, the regional watershed and local sub-watershed, followed by a number. The pictured inlet marker would mark a storm drain inlet that is found in the Hilton Branch (HIB) local sub-watershed, which is found in the Grapevine Lake Dam (GLD) regional watershed, and will eventually flow into Grapevine Lake. The unique inlet identifier can be used by City of Grapevine residents to inform City personnel of inlets that are damaged or to report illegal dumping to the storm drain system.

In an Emergency – do you **KnoWhat2do?**

The City of Grapevine is subject to a variety of emergency and hazardous conditions. In an emergency, do you know what actions to take to protect yourself and your family members? While there are many skilled and caring emergency response professionals within Grapevine, you are your own best protection.

The Grapevine Office of Emergency Management partnered with other communities in North Texas to develop the **KnoWhat2Do** Preparedness Program (www.knowwhat2do.com) to provide information on the hazards that we face, the steps to become prepared, and how to get involved in emergency preparedness activities within our community.

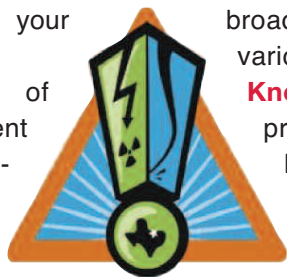

Using a grant from the Department of Homeland Security, information materials were developed to guide

citizens through such topics as: Severe weather, terrorism, hazardous materials, gas wells and pipelines, personal safety, building a disaster preparedness supply kit, and how to address special needs during a disaster.

Information has been developed for broad dissemination through various formats including a **KnoWhat2Do** website, a preparedness guide and DVD. Copies of the preparedness guide and DVD are available to any Grapevine citizen through the Office of Emergency Management. To get your

household copy, contact Emergency Management Coordinator Carrie Little at clittle@grapevinetexas.gov or at 817-410-3484.

...Storm, continued from page 1

Delivery had crews into many of the neighborhoods within just a few hours and had begun to restore critical needs within a short time. At the height of the outage, Oncor estimated that over 5,500 Grapevine customers were without power.

The effort by citizens and City crews did not end that evening. Over the next three days, crews and residents worked virtually around the clock putting the City back to normal. On Friday and Saturday, Allied Waste, along with several contracted haulers and City crews, made numerous trips through the hardest-hit neighborhoods collecting brush. Additionally, large dumpsters were placed to accept trash from

homeowners; special trash routes were established to meet the demands in excess or normal pick-up; several local hotels offered special reduced rates for citizens who were affected by the power outage; and the Red Cross made several surveys of areas and offered comfort kits and other assistance as needed. By Saturday evening, Oncor, assisted by over 25 crews from other areas of the state, had restored power to all residents.

As this storm emphasizes, Grapevine is certainly not immune to the destructive forces of nature. However, those forces are not a match for the strength of character, strength of community, and self-sufficient nature of the people that are Grapevine. 🍇

CodeRED Emergency Information Delivered to your Phone

The City of Grapevine has contracted with the Emergency Communications Network, Inc. for its "CodeRED" high-speed telephone emergency notification services. The CodeRED system gives City officials the ability to deliver pre-recorded emergency telephone information messages to targeted areas or the entire city in a timely manner.

A database of landline telephone numbers has been input to the CodeRED system; however, additional phone numbers, including cell phones, may also be added to the database. You may add phone numbers on-line by clicking the CodeRED link on the City's webpage, www.grapevinetexas.gov, or by calling Emergency Management Coordinator Carrie Little at 817-410-3484, Monday through Friday (8 am to 5 pm) to give information over the phone. Required information includes first and last name, street address (physical address, no P.O. boxes), city, state, zip code, primary phone number, and cell phone number if desired.

No one should automatically assume his or her phone number is included. All businesses should register, as well as all individuals who have unlisted phone numbers, who have changed their phone number or address within the last year, or who use a cellular phone as their primary home phone.

For additional information about the CodeRED system, please contact Emergency Management Coordinator Carrie Little at 817-410-3484 or clittle@grapevinetexas.gov. 🍇
